

FABIO MACOR

DJ // Producer

As a curious learner, he finds it hard to stay within the confines of one discipline. Avid listener and record collector, Fabio finds great inspiration in mixing present and past to push them into new boundaries. Currently he has releases on Flashmob Records, Lauter Unfug, Plastik People, Mood Funk, Natura Viva, Ocean Trax, Lynx, Molecule Recordings, Sounwaves, Arch44, Black Hole Recordings, Lost Language, he collaborated with several DJs/Producers in the scene such as Jaydee, Richard Mowatt, M.In, Tilt, Ben Woods and received support from such artists as Flashmob, Terranova, Mike Monday, Paul Oakenfold, Solarstone, Gianni Bini. For him art is everywhere and, apart from music, photography is another way to capture it. Not being bound to one single genre, his productions span from House to Techno while maintaining clear roots in earlier Detroit aesthetics. Since 2014 he collaborates with Soundwall (<http://www.soundwall.it/author/fabio-macor/>), writing reviews, interviews and news for the Italian #1 electronic music magazine.
